

QUICK TIPS

For Creating a Safe and Positive Learning Environment

Introductions

Name/Pronouns/Program for each person

Tell me something interesting about yourself

If prompting needed offer >1 option

A show you binged or book you read

Favorite Superhero/Superhero Power

Hobbies outside of healthcare

Share a story about your name

Expectations

Roles and Responsibilities for Each Person

What to Include/Length of Presentations

What to Include/when Documentation due

Conflicting Responsibilities for Team

(class, clinic, etc.)

How/When Feedback is Provided

Professionalism

Be Humble/Vulnerable: "I don't know"

Acknowledge Explicit/Implicit bias

Care with Humor--it can be misinterpreted

(often based on shared or prior

experiences that students don't have)

Encourage Bystander Intervention

Debrief

What did we learn today?

How did we treat each other?

What went well?

What should we do differently tomorrow?

How could we be more patient-centered?

What final questions do you have?
